Report on Examining Ways in which Blockchain Technology can Facilitate, Improve IoT Security

This CSA white paper explores the capabilities of blockchain technology in facilitating and improving the security of the internet of things (IoT). It highlights various features that should be considered when securing connected devices using blockchain technology. The document provides a high-level overview of blockchain technology, and then outlines a set of architectural patterns that enable blockchain to be used as a technology to secure IoT capabilities. It also offers specific use-case examples of blockchain for IoT security.

NTUC Learning Hub is appointed 3rd CCSK Training Partner in Singapore

Dr. Hing-Yan Lee (EVP, CSA APAC) and Anthony Chew (Director, NTUC Learning Hub) signing the CCSK training partner agreement

CSA has appointed several authorized Certified Cloud Security Knowledge (CCSK) training partners in Singapore to provide CCSK training (both theory and practical components). Besides Hewlett Packard Education and RapidStart, CSA has recently signed an agreement with NTUC Learning Hub (LHUB) to conduct & promote CCSK.

Mr. Kwek Kok Kwong (CEO, LHUB) shared, "Singapore is one of the most connected nations in the world. Digital technology is evolving everywhere, and it is becoming increasingly important to adopt measures that ensure security in the cyberspace. Time and again, we see cyber-attacks and it is crucial that we step up awareness of security amongst cloud users. We are therefore happy to partner with CSA to equip and deepen the necessary skill sets for individuals, in a bid to provide organizations with broader security capabilities when adopting cloud computing solutions for their businesses."

LGMS is appointed as 3rd CCSK Training Partner in Malaysia

LGMS, a leading cybersecurity service provider, has been appointed by CSA as its most recent CCSK training partner in Malaysia. The other CCSK training partners in Malaysia are Hewlett Packard Education and Vertical District.

New Leadership for CSA Indonesia Chapter

To remain relevant to its local community, the renewal and rejuvenation of CSA chapter leadership continues to be an important ongoing focus of the CSA APAC team. We are pleased to announce a new leadership team in the CSA Indonesia Chapter, which will henceforth be chaired by Laksana Budiwiyono (Country Manager, Trend Micro Indonesia). The key goal of the chapter is to promote awareness and best practice of cloud and virtualization security in Indonesia and to campaign and educate the uses of cloud computing securely.

STRATUS Meeting - 26 March 2018, New Zealand

Haojie Zhuang (Research Director, CSA APAC) met with the Science Leadership Team and Industry Advisory Group of STRATUS

Haojie Zhuang (Research Director, CSA APAC) with Suranwan Wickramasuriya (Manager, Information Security, Waikato District Health Board)

STRATUS is a 6-year NZ$12.2 million project funded by Ministry of Business, Innovation, and Employment. Its theme is "Security Technologies Returning Accountability, Trust and User-centric Services in the Cloud" (STRATUS). The aim is to empower users to be able to control the security of their data in the Cloud and to give companies tools and services to sell. STRATUS is executed by a team of leading cloud security researchers and practitioners from University of Waikato, University of Auckland, Unitec Institute of Technology, and CSA.
