

Cloud Security Alliance APAC Codebook- January 2018

Special Message from Cloud Security Alliance

Appointment of Zhuang Haojie as Director of Research APAC

We are pleased to announce that Zhuang Haojie has been appointed to the position of Director of Research of Cloud Security Alliance Asia Pacific.

Haojie was previously with the National Cloud Computing Office at the Infocomm Development Authority (IDA), and then the Intelligent Computing Lab at the Infocomm Media Development Authority (IMDA) of Singapore. Prior to that, Haojie was involved in R&D of networking protocols for multi-hop underwater networks at the Institute for Infocomm Research (I2R), had earlier stints in sales & consultancy in Shanghai, and also freelanced as a photographer.

Welcome aboard Haojie!

New Releases of the Month

New Code of Conduct for GDPR Compliance

[CSA Code of Conduct for GDPR Compliance](#), provides cloud service providers (CSPs), cloud customers, and potential customers with much-needed guidance in order to comply with the new obligations stemming from the European General Data Protection Regulation (GDPR). As part of this release, the CSA has also launched the [CSA GDPR Resource Center](#), a new community-driven website with tools and resources to help educate CSPs and enterprises on the new European data protection regulation.

New Cloud Security for Startups Report

The new white paper, developed by the CSA Israel chapter, aims to help Software-as-a-Service Startups (SaaS-SUs) gain and maintain customer trust by building solid security foundations at an early stage of the product development process. In establishing security controls to match risks at any point in time, SaaS-SUs can successfully align those controls with product development and investment rounds.

Highlights

CCSK obtains Course Mapping Approval under IMDA's CITREP+

CCSKTM

Certificate of
Cloud Security Knowledge

In Partnership With:

Supported by:

CSA is pleased to announce that its Certificate of Cloud Security Knowledge (CCSK) course has successfully completed course mapping under Critical Infocomm Technology Resource Programme Plus (CITREP+).

Through this recognition, attendees who are Singapore citizens and permanent residents can attend the 3-day CCSK training course at subsidised costs under CITREP+ as a part of TechSkills Accelerator (TeSA), a program which supports local professionals and working professionals to continuously re-skill and stay abreast of the latest in-demand technical skills, to remain valued and competitive in Singapore. Singaporeans and permanent residents are also eligible for CITREP+ funding to take the CCSK examination.

CSA Appoints New CCSK Training Partner- RapidStart

CSA has appointed several authorised CCSK training partners in Singapore who provides the 3-day CCSK training (both theory and practical components). Besides Hewlett Packard Education, CSA has recently signed an agreement with RapidStart to conduct CCSK in the near future.

“We are excited to announce our partnership with CSA which will continue to broaden our offerings in Cloud Computing Technology. There’s no doubt about the growing demand for skills and expertise in Cloud Computing and this partnership will enable us to join forces and collaborate with CSA together to address local industry needs”, said Dr Anton Ravindran, CEO of RapidStart Pte Ltd.

Ron Knode Service Award

The **Ron Knode Service Award** is awarded annually to CSA members whose contributions reflect Ron’s passion for volunteerism and embody the spirit for which this award was established in 2012.

The 2017 winners from APAC are

Xiaoyu Ge

Senior Security Standards Manager of Huawei IT

Xiaoyu Ge is the Senior Security Standards Manager of Huawei IT Product Line which include cloud computing, big data, storage, and server products and services. He is also active as security expert in SDOs, He is the ISO/IEC JTC1 SC27 WG expert of China Nation Body, he is the rapporteur of several SC27 project such as “Requirements for establishing roots of trust for virtualized environment”. He is the main contributor of CSA “Best Practices for Mitigating Risks in Virtualized Environments”. He is also a CSA International Standardization Council member. Currently, his research interests focus on cloud security.

Ronald Tse

Founder of Ribose

Ronald Tse is the founder and CEO of Ribose, leading strategic development and its technology roadmap. Under his leadership, Ribose became the world’s first cloud platform to achieve MTCS (Multi-Tier Cloud Security), the only CSP to be triple assured by CSA: CSA STAR Attestation, CSA STAR Certification (Cloud Controls Matrix, CCM 3.0.1) and CSA C-STAR Assessment, and has been consistently awarded the industry’s

highest cloud security ratings: the highest security tier, Level 3, in MTCS and the highest maturity level, Gold, in STAR Certification. He is the founding chair of CSA's SaaS Governance workgroup, voting member at CSA's International Standardization Council, represents China / Hong Kong / CSA at ISO/IEC JTC1/SC27 (information security), represents Hong Kong at China's National Information Security Standards Committee (TC 260) and the Hong Kong/Guangdong Information Security Committee.

Past Webinar

Topic: Returning data control to users - the next frontier for cloud security research

Speaker: Associate Professor Ryan Ko, University of Waikato

Upcoming CSA Events in 2018

CSA Philippines Cloud Security Tour

23 February 2018 | Tides, Boracay

CSA Malaysia Summit 2018 (date subject to change due to potential conflict with General Elections)

14 March 2018 | Kuala Lumpur, Malaysia

CSA APAC Financial Cloud Forum 2018

16 May 2018 | Hong Kong

CSA Hong Kong & Macau Summit 2018

17 May 2018 | Hong Kong

CSA Bangalore Summit 2018

14 June 2018 | Bangalore, India

CSA Taiwan Summit 2018

10-12 July | Taipei

CSA ASEAN Summit 2018

TBC July | Bangkok
