

## Cloud Security Alliance APAC Codebook - April 2018

### New Releases of the Month

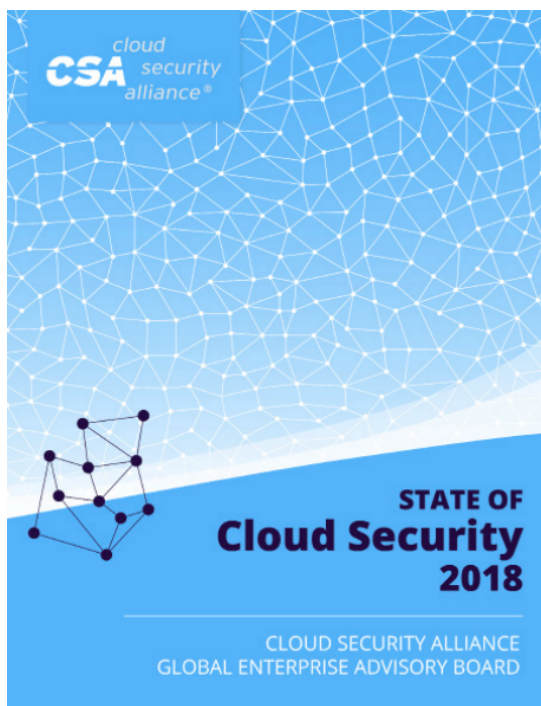

#### GDPR Preparation & Challenges Survey Report

The report collected inputs from over 1,000 respondents addressing GDPR challenges in their organizations, in areas such as their ability and confidence to achieve compliance; what — if any — organizational plans they have in place; which technology solutions and mechanisms are being used to meet GDPR requirements; what they consider to be the most challenging elements of GDPR in terms of compliance; and the impact of GDPR on company plans for the adoption of new technologies, provider relationships, and budgets.

#### State of Cloud Security 2018

The report lays out some of the latest cloud practices and technologies that the enterprise information security practitioner must be aware of as organizational data expands beyond the traditional perimeter. The report, authored by the CSA Global Enterprise Advisory Board, examines areas such as the adoption of cloud and related technologies, what both enterprises and cloud providers are doing to ensure security requirements are met, how to best work with regulators, the evolving threat landscape, and goes on to touch upon the industry skills gap.
