

Cloud Security Alliance APAC Codebook - August 2018

Releases in August 2018

Cloud Adoption in the Malaysia FSI Sector

CSA & Malaysia Digital Economy Corporation (MDEC) released the results of a joint survey, "Cloud Adoption in the Malaysian FSI Sector", which surveyed IT and security professionals in Malaysia's FSI about their cloud service adoption plans and priorities. The results were announced at the inaugural CSA Malaysia Summit in Kuala Lumpur. The report published key findings in the areas of cloud adoption, IT security budgets, cloud computing, and cyber security skills, as well as cloud service compliance and regulations.

Top Threats to Cloud Computing: Deep Dive

"The Top Threats to Cloud Computing: Deep Dive", a case-study analysis that provides more technical details dealing with architecture, compliance, risk and mitigations for each of the cloud computing threats and vulnerabilities identified in the [Treacherous 12: Top Threats to Cloud Computing](#) (2016). This case study attempts to connect all the dots when it comes to risk management by using the the nine anecdotes cited in the Top Threats for its foundation.

Special Message from Cloud Security Alliance

Welcome to New CSA Corporate Member - MAXIS

Maxis, a communications service provider in Malaysia, has joined the CSA as a corporate member. Headquartered in Kuala Lumpur, it provides a variety of communication products, applications and value added services for consumers, large enterprises and small & medium business owners. Maxis also offers high speed broadband for home and business users. Its services enables and empowers the mobile workforce for greater agility and better productivity without compromising data security with real time data access and submission on-the-go.

Maxis joined the alliance to gain knowledge on Cloud Security related technologies and also to learn from the industry experts the best practices in securing data specific to its industry. It wants to leverage from the latest information, frameworks and trainings from CSA to keep its team up speed with the constant advancement in Cloud Security technologies and threats.

New Appointment

Jon Lau is Director of Business Development at CSA APAC, where he focuses on event sponsorship and corporate members recruitment. He started his career focusing on Data Mining and Artificial Intelligence at the applied R&D arm of the National Computer Board. He went on to help spearhead Grid Computing in Singapore. Jon moved from A*STAR to Infocomm Development Agency where he worked with the industry to leverage on grid services. He helped strategise and establish Government Cloud (G-Cloud) and manage it. Prior to joining CSA, he led Business Development and Strategic Planning and Policy roles at National Super Computing Centre.
