CSA Research- Call for Participation

SaaS Governance Working Group
The SaaS Governance working group aims to benefit all parties in the Software-as-a-Service (SaaS) ecosystem by supporting a common understanding of SaaS-related risks from the perspectives of the cloud customer and cloud service provider.

Interested parties please proceed to register at https://cloudsecurityalliance.org/group/saas-governance/#_join

Cloud Component Specifications Working Group

This WG aims to develop technical security best practices and guidelines for these components to provide better purchasing decisions for Cloud Service Providers (CSPs), better product development for cloud component suppliers and ultimately a more secure Cloud environment for the end users.

Interested parties please proceed to register athttps://cloudsecurityalliance.org/group/cloud-

component-specifications/#_join

Cloud Services Security Working Group

This WG aims to develop a whitepaper which will serve as a guideline for CSP's to secure its cloud platform and provide cloud security services to its cloud users. This WG hopes to develop a platform for CSP's to publish their security requirements and for security vendors to share their product and services and to provide a platform for interoperability testing.

Interested parties please proceed to register at
https://cloudsecurityalliance.org/group/cloud-security-services-management/#_join
