CSA Hyderabad Summit 2018

CSA CXO Dinner @ Hyderabad 2018

26 September 2018 | Lemon Tree Premier, Hyderabad

Executive Summary

Introduction

Today, cloud represents the preferred IT system by which organizations will transform themselves over the coming years. As cloud represents the future of an agile enterprise, new technology trends, such as Internet of Things, quantum computing, and container technologies extend the benefits of cloud – but also creates new attack vectors for ambitious and resourceful adversaries. The summit will discuss global governance, the latest trends in technology, the threat landscape, security innovations, best practices and global governance in order to help organizations address the new frontiers in cloud security.

The Cloud Security Alliance(CSA), the world's leading organization dedicated to defining and raising awareness of best practices to help ensure a secure cloud computing environment, hosted its Inaugural CSA Hyderabad Summit on 26 September 2018 at the Lemon Tree Premier Hotel. The Summit attracted over 320 C-levels, government dignitaries, and decision makers and featured a launch of the CSA Hyderabad Chapter. CSA regional chapters are essential to CSA's mission to promote the secure adoption of cloud computing.

Program

Dr. Lee Hing-Yan, Executive Vice President of CSA APAC, and Dr. Amar Prasad Reddy, Director General National at Cyber Safety & Security Standards opened the Summit addressing both international and local insights on Cloud Security respectively. The event was also attended by high-profile individuals in the tech and IT industry. The Summit delivered a total of 11 presentations from renowned speakers, experts, and thought leaders, addressing hot topics such as Cloud Adoption in Enterprises, DevSecOps approach to Cloud Security, Can Blockchain deliver on IoT and Cloud Security?, Data Privacy in Cloud, Cloud Access Security Brokers (CASBs) and Connected Vehicle Security.

Presentations were made by the industry's notable thought leaders in cloud, who spoke on topics such as:

- Dr. Amar Prasad Reddy (Director General, National Cyber Safety & Security Standards) talked about the importance of Cloud Security in Governance in India.
- "Securing Connected Vehicles" – Satyavathi Divadari (Director – Cyber Security, Cognizant Technology Solutions Pvt Ltd) talked about the evolution of smart connected vehicles, vulnerabilities in the system and suggested recommendations to secure them. Session also included case studies of attacks on connected vehicles and detailed discussion on the root causes.
- "Can Blockchain deliver on IoT and Cloud Security?" - Inderjith Develur (Group CIO, KIMS Hospitals Pvt Ltd) talked about the rapid proliferation of IoT devices and cloud options for public health records (PHR), asked if blockchain technology has what it takes to provide the much needed security. But can it? Will it? What are the challenges? What will change for Blockchain in the next 5 years? Can PHR and IoT become a viable and safe reality?

- “Data Privacy in Cloud” - The EU General Data Protection Regulation (GDPR) and other privacy laws are leading the evolving regulatory landscape, creating unease across organizations globally in the journey to cloud. Subhajit De (CISO, Dr. Reddy’s Laboratories) outlined data privacy and security governance best practices for cloud migrations.
- “Global Digital Health Infrastructure and Future of India-Japan Partnership” - Dr. Eiji Sasahara (Executive Director, CSA Japan Chapter) introduced the landscape of digital health infrastructure and cloud adoption in Japan, and Refer to Business Opportunities of Japan-India Collaboration by utilizing CSA's Cross-Chapter Resources.

For full details of the program, please refer to Annex A. For the photos taken at the summit, please see Annex C.

The Summit was made possible by sponsorship from Trend Micro and Cognizant Technology Solutions.

As a part of the Summit, CSA also organized a CXO Dinner for the C-suite on the theme of “Cloud Security”. The dinner was sponsored by F5. Please refer to Annex D for details.

Audience

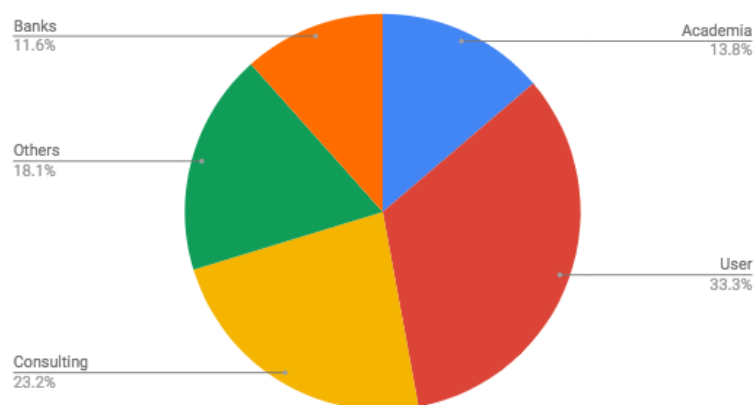

A total of 327 people registered to attend the event. Of these, the number of actual attendees was 137 (41.9%). We attribute the absence to several factors, including:

- (a) The long weekend that followed religious holiday in Hyderabad.
- (b) CSA's first time presence in Hyderabad and new to the growing IT community there.
- (c) The local's preference of attending such an event on a weekend.

Annex A : Summit Program

Time	Duration	Activity
8:30 - 9:30 AM	1 hour	Registration
9:30 - 9:40 AM	10 mins	Welcome Remarks
9:40 - 10:10 AM	20 mins	Enterprise Cloud Security with CSA Jim REAVIS , Co-Founder & CEO, Cloud Security Alliance
10:10 - 10:30 AM	30 mins	"Keynote on the Importance of Cloud Security in Governance" Dr. Amar Prasad REDDY (Director-General, National Cyber Safety & Security Standards)
10:30 - 11:00 AM	30 mins	"Securing Connected Vehicles for Smart Cities" Satyavathi DIVADRI (Director - Cyber Security, Cognizant Technology Solutions)
11:00 - 11:30 AM	30 mins	"The DevSecOps approach to Cloud Security" Biswajit DE (Senior Technical Consultant, TrendMicro)
11:30 - 12:00 PM	30 mins	Tea Break

12:00 - 12:30 PM	30 mins	"Can Blockchain deliver on IoT and Cloud Security?" Inderjith DEVELUR (Group CIO, KIMS Hospitals)
12:30 - 1:00 PM	30 mins	"Cloud Security – Tools, Process and People" Smita KAMAT (Executive Vice President, BroadRidge)
1:00 - 2:00 PM	1 hour	Lunch Break
2:00 - 2:30 PM	30 mins	"Data Privacy in Cloud" Subhajit DEB (Chief Information Security Officer, Dr. Reddy's Laboratories)
2:30 - 3:00 PM	30 mins	"Cloud Access Security Brokers (CASBs) - Just Another Fancy Term?" Haojie ZHUANG (Research Director APAC, CSA)
3:00 - 3:30 PM	30 mins	Tea Break
3:30 - 4:00 PM	30 mins	"Global Digital Health Infrastructure and Future of India-Japan Partnership" Eiji SASAHARA (Executive Director, CSA Japan Chapter)
4:00 - 4:30 PM	30 mins	"Are You a STAR?" Dr. Hing-Yan LEE (EVP APAC, CSA)
4:30 - 5:00 PM	30 mins	CSA Hyderabad Chapter Call-to-Action Raghava GURRAPU (Board Member, CSA Hyderabad Chapter)

Annex D : CSA CXO Dinner @ Hyderabad

The Cloud Security Alliance **CXO Roundtable Series** is an event that will be held in APAC cities such as Bangalore, Hong Kong, Taipei and Singapore. Other cities may follow.

Recognised as the worldwide Think tank leader that performs research and advocacy concerning Cloud Computing and Cybersecurity, the CSA has been organizing CXO Roundtable since 2014 with great success. The CXO Roundtable is a great opportunity to meet and network with senior government officials and corporate decision makers to discuss and exchange ideas about how to shape the future of cloud computing security. It is an excellent platform to facilitate intimate conversation and touch base with key executive management from corporate enterprises, hence delivering effective lead generation. Moreover, it allows your organisation to demonstrate thought leadership in the area of the theme of the roundtable.

The CSA CXO Roundtable is hosted by the CSA APAC Office and co-hosted by the respective CSA Chapter. It is a theme-based luncheon that is facilitated by a research analyst where there will be takeaways from the luncheon/dinner, allowing for continuous touch points until the next roundtable. It is exclusively an end-user only roundtable where up to twenty (“20”) senior decision makers from corporate enterprises shall be invited and the sponsors shall be the only providers allowed in the roundtable. There should be no more than three (“3”) sponsors each roundtable.

The CSA CXO Dinner @ Hyderabad was held on the evening of 26 September after the conclusion of the CSA Hyderabad Summit earlier that day. The dinner was held at the Lemon Tree Premier Hotel.
