Post Event Report

CSA Bangalore Summit 2018

14 June 2018 | Bengaluru, India

Theme: Enterprise Grade Security

Today, the cloud represents the preferred IT system by which organizations will transform themselves over the coming years. As cloud represents the future of an agile enterprise, new technology trends, such as the Internet of Things (IoT), quantum computing, and container technologies extend the benefits of cloud – but also creates new attack vectors for ambitious and resourceful adversaries. The summit will discuss global governance, the latest trends in technology, the threat landscape, security innovations, best practices and global governance in order to help organizations address the new frontiers in cloud security.
